THE EUROPEAN INTERNET MARKET

- **Online Petshops:** still rare 2 years ago, booming now
- **Facebook groups, Instagram, Twitter (hashtags #dogforsale)**
- **Hidden sales on "Rescue dogs" adoption forums**
- **Phone apps**
- **Classified ads:** Most common way to sell animals on the Internet

Internet market: at least 50% of the companion animal market (more than 80% in some countries!)

ONLINE BUYERS

Profiles

- **UNINTENTIONAL ONLINE BUYERS** = didn't plan to buy an animal when surfing on the Internet
 - **Emotional unintentional buyers**: buy because they have been seduced by a “cute” picture
 - **Cognitive unintentional buyers**: buy because of a “cute” picture + an extra element coming from reason (e.g. advertised as a good companion, or as a very good price)
- **INTENTIONAL ONLINE BUYERS** = went on the Internet specifically for buying an animal, having a specific appearance or a very low price
- **SPECIFIC CASE: ANIMAL COMPULSIVE RESCUERS ('Animal hoarders')**: Internet ads exploit the vulnerability of these people, especially fake rescue ads. They can also get easily animals even if they've been condemned.

More humanity towards animals

ONLINE BUYERS

Why do they buy online?

- **DUE TO HABIT:**

Nowadays everything is available online (online shopping, dating websites, kids adoption websites etc.)

- **EASY AND CONVENIENT:**

It is easy to find immediately available dogs, sellers, to compare prices from anywhere (home, work etc.). Moreover, it is almost anonymous

- **LARGE CATALOG:**

Ads from all over the world and possibility of home delivery

- **CHEAP PRICES:**

As the Internet market is flooded with puppy smugglers and private breeders, prices are very low compare to the ones of serious breeders

- **EMOTION:**

Targeted advertisement can lead to impulsive/ non intended buying

UNSCRUPULOUS NON-PROFESSIONAL BREEDING

Unfair competition to professional breeders

Case study/ Data from France

Non-professional breeders vs professional breeders

6 000 occasional private dog breeders

Unknown number of private breeders (estimated that at least 50% dog owner will sell a litter in his dog's life)

5 352 licenced breeders

Profits

Enquiry of 2014: private breeders are earning 4 times more money than professional breeders

=> **No VAT, no professional tax to pay, no keeping/ breeding requirements to follow/ Equals able to offer animals at a very low price**

Case study/ Data from France:

ONLINE TRADE

Health risk and no protection for the buyer

The 2012's Kennel Club Enquiry (UK)

- 20% puppies bought online die before they get to 6 months old
- 12% of puppies bought online end up with serious health problems that require expensive on-going veterinary treatment from a young age

=> In comparison, 94% of puppies bought direct from a professional breeder were reported as having good overall health

More humanity towards animals

ONLINE TRADE

Lack of Consumer Protection

This means for the buyer:

High costs:

- High veterinary costs if the animal is ill or suffering behavioural issues due to poor breeding/keeping conditions
- Quarantine fees if the animal is found to be illegally imported.
- Potential fraudulent trading online leading to the buyer giving money and not receiving the animal

Health Risks:

- Risk of zoonotic diseases such as rabies if the animal is unvaccinated and imported from a country with rabies

Emotional cost:

- The emotional cost of having to see an animal become ill and in some cases die due to irresponsible breeding and trading. Distress for the family/children

- In general, the website owners (such as eBay inc./ Marktplaats) state they are only the **host** of the ads and not the author of the content
- They avoid responsibility by a declaration in the Term of Use that says **they do not guarantee the « legality, quality or safety » of the sales...**

Some jurisdictions do not allow the disclaimer of warranties or exclusion of damages, so such disclaimers and exclusions may not apply to you.

Despite the previous paragraph, if we are found to be liable, our liability to you or any third party (whether in contract, tort, negligence, strict liability in tort, by statute or otherwise) is limited to the greater of (a) the total fees you pay to us in the 12 months prior to the action giving rise to liability, and (b) 100 US Dollars.

2. Gegenüber Unternehmern haftet Marktplaats BV für Schäden, außer im Fall der Verletzung solcher Pflichten aus dem Schuldverhältnis, deren Erfüllung die ordnungsgemäße Durchführung des Vertrags überhaupt erst ermöglicht, auf deren Einhaltung der Vertragspartner regelmäßig vertrauen darf und deren Verletzung die Erreichung des Vertragszwecks gefährdet (wesentliche Vertragspflichten), nur, wenn und soweit Marktplaats BV, ihren gesetzlichen Vertretern, leitenden Angestellten oder sonstigen Erfüllungsgehilfen Vorsatz oder grobe Fahrlässigkeit zur Last fällt. Im Fall der Verletzung wesentlicher Vertragspflichten haftet Marktplaats BV für jedes schuldhafte Verhalten ihrer gesetzlichen Vertreter, leitenden Angestellten oder sonstigen Erfüllungsgehilfen.

BALANCE OF INTERESTS

RESULT:

Online trade of animals is leading to serious Animal Welfare, Animal Health, Human Health and Consumer Protection concerns

HOWEVER:

- ❖ Prohibiting online trade of animals might lead to the creation of a giant black market ('darknet') which would be impossible to control (such as apps, Facebook groups etc.)
- ❖ Internet does not mean systematically fraud: it can be a chance for serious breeders to present themselves and their dogs/cats in a responsible way

=> As long as consumers desire to buy animals online, the online trade will continue to exist

More humanity towards animals

SOLUTION STRATEGIES

Recommendations

COMPLETE BANS

- ❖ **Ban of online trade of animals on non-specialised websites (such as social media)**
- ❖ **Ban on home delivery of animals purchased online**
- ❖ **Ban in trade of animals by unscrupulous private persons / breeders having no knowledge on animal breeding and/ or not officially registered as breeders (but possibility for shelters to advertise in a responsible way)**
- ❖ **Prohibition of targeted advertisement for animals online**

More humanity towards animals

SOLUTION OPTIONS

Recommendations

STRICT CONTROL OF ONLINE TRADE

- ❖ **Mandatory registration of sellers on the classified ads websites** with verified data (such as credit card, phone number...)
- ❖ **Obligation to give evidence of the seller's identity** (NGO, breeder, private person...) including the professional/ tax number
- ❖ **Obligation to give some information on the dogs/ cats sold** (origin, chip number, passport number...)
- ❖ **Minimum welfare/ health requirements** (at least 12 weeks old, vaccinations...)

More humanity towards animals

SOLUTION OPTIONS

Recommendations

EDUCATION OF THE PUBLIC

- ❖ **Duty of the websites to inform the buyers**
 - about risks of Internet sale of animals
 - on responsible ownership of dogs/ cats (e.g. with check lists to tick, welfare information about the species/breed)

TRACEABILITY

- ❖ **Traceability of sellers with mandatory registration/ licensing system**
- ❖ **Traceability of the animals with mandatory I&R and clearly shown origin**

ANIMAL SUFFERING

No need to visit animal fairs now; cows, buffaloes available online

Neeraj Mohan, Hindustan Times, Rohtak | Updated: Oct 06, 2015 21:33 IST

Though the online sale and purchase of cattle is a new phenomenon in Haryana and Punjab, it was already popular in several other parts of the country as many a website display classifieds for cattle. (Photo credit: Wikipedia)

[f](#) Share 38 [t](#) Share 4 [G+](#) Share [in](#) Share

Gone are the days when cattle lovers had to wait for annual animal fairs to sell and buy cows and buffaloes. Now, the Internet is enabling farmers to search and select the cattle of their choice based on their profiles on the online classifieds.

The new platform also helps them save time and money that they earlier spent in search of cattle. They can now contact the seller directly by getting the required information on the online outlets. These outlets provide a long list of animals and dairy farms where farmers can find the desired cows or buffaloes. A review of these online outlets shows most of the entries are from Haryana, Punjab and Uttar Pradesh.

Alligator for Sale

American Alligator

Alligator mississippiensis

We have some spectacular captive bred American Alligators for sale at the lowest possible prices. These incredible reptiles, often called "gators," are beyond impressive. Males can attain a total length of up to 14', while females top out closer to 10'. There is something so primitive about these reptiles, and watching them attack prey in a watery fury is beyond entertaining. Please check the list farther down on this page to make sure your state allows alligators. We will not ship gators to the below states.

I just want to thank you for my amazing alligator - "LillyGator" Your customer service was fantastic and it's comforting knowing if I ever do have a question, y'all always reply. You made good on your promise, and I received the most beautiful, healthy, alligator. She lets everyone handle her, she eats fantastic, knows her name and is doing great both on leash training and being trained to respond to a dog clicker. I purchase the pellets from you, and Lilly does great on them. She is just amazing!!! I have and will continue to recommend your site to many others and have absolutely nothing but good things to say about your company.
